

3M™ Outdoor Masking and Stucco Tape 5959

Sticks & stays

- Masking around masonry and stonework
- Hanging poly drapes

* on most opaque surfaces

No messy residue even on rough surfaces

This clean removal tape combines a hefty backing and aggressive adhesive for many outdoor construction jobs. Mask windows and doors during masonry and stucco/plastering jobs. Holds polyethylene to rough surfaces like brick.

- Holds tightly for multiple days to help save time and money; no need to retape or rehang poly each work day

- Removes cleanly even after days in the sun
- Strong backing pulls through stucco, EIFS, and other heavy coatings for one piece removal
